

CLASSIC lashes

Full Set (2 hours 10 minutes) £45.00

Classic lashes are the perfect way to enhance natural lashes. With the Classic Lash Technique, one individual lash is applied to one natural lash meaning the amount of natural lashes you have will determine how full the overall result will be.

Depending on the desired look, I offer a range of curls, lengths and thicknesses to choose from and they can last for up to 3 weeks depending on your lash aftercare and lash cycle (both of which can be found in the highlights section of our instagram. If you would like your eyelash extensions to be fuller, please consider the Hybrid lashes. Prior to your appointment, please have an idea of what you would like and take a look at our Instagram for inspiration photos. This will help to make sure you get the look you desire.

Please book using our online booking system and make sure to read all policies and terms & conditions before confirming your appointments.

Infill (1 hour 15 minutes) £35.00

Due to your natural lashes shedding, you will notice that gaps start to appear in your lash extensions. An infill should be carried out every 2-3 weeks.

Not only does this keep them looking beautiful, it prevents your natural lashes from becoming damaged or weakened. During the infill process, grown out lashes will be carefully removed and new individual lashes will be applied to fill the gaps due to fallout and removal. You must return with at least 50% of your lashes left to be considered an infill. Anything less than this will require a full set.

Please book using our online booking system and make sure to read all policies and terms & conditions before confirming your appointments.
